

# ***“Huile Consolatrice Articulations et Contractures”***

## **Joints and Contractions Solar Oil**

***“The Lord and Teacher is risen beyond death.  
He has become what he was before the tearing.  
His body was whole.  
He had a body but this body was the true body.”***  
*(Gospel of Philip 72)*

Rich in salicylates, camphor and other natural active principles such as “cortisone-like” (natural cortisone), this Oil of Anointing acts on rheumatic pains and joint-pains. It is antalgic, anti-arthritis and anti-inflammatory. It is effective against tendonitis, arthritis, contractions, cramps and sprains. It is an ideal Oil for sportsmen, before and after effort.

Calming and soothing for physical pains, it acts on stiffness of joints and muscles, thus allowing the disappearance of what is no longer needed. ***“Huile Consolatrice Articulations et Contractures”*** helps to free and harmonise the flow of the circulation of life-energy in the body. (Liberation of maladjusted “armour-plating” according to W.Reich).

Liberating tensions, pains, stiffness and energy-blocks, this Oil of Anointing restores flexibility and fluidity to our movements, but also to our emotional life, binding it to the Living Principle that animates us.

It is a stimulant to the immune system. It restores energy to those afflicted by sudden exhaustion. In such cases, ***“Huile Consolatrice Articulations et Contractures”*** brings warmth and comfort to our swollen and painful organisms.

This Oil of Anointing can be used for local massage or more generous massage of the whole body. As it is very concentrated it is possible to dilute it using a neutral Oil.

Note: The Epinette noire (*Picea mariana*) of the composition is a cortisone-like action which is synergistic with other compounds. I suggest to massage the lower back and kidneys every morning with **Garshan Gloves** ( see catalogue) and then apply this oil. This feeds the “empty energy kidney” and supports the adrenal glands exhausted.

## **Composition**

### ***Huiles végétales :***

Calophylle (Calophyllum inopyllum)  
Ricin (Ricinus communis, Palma christi)  
Chaulmoogra (Taraktogenos kurzi)  
Macération solaire d'arnica (Arnica montana)
