

A-RÂ-MU Lemurian Essence

Anointing Solar Oil Perfume

*“See and experience life beyond image,
Such is the experience of unity.
Outside of self, no god.
Nothing is achieved through separation.
Nothing to do, nothing to seek, just let it emerge....
The heart of the matter is light, transparency, deliverance... LOVE”*
Myrha

A-RÂ-MU Lemurian Essence, anointing Solar oil, born on the full moon of September 2013, is the completely natural, crystalline olfactory fruit achieved, following the writing of the first two books of ***“L’Envol de la ŠerpenTerre: La Rédemption”***, through a process of multidimensional opening/meditation/blossoming. This process although personal, is in phase with the galactic transformation-mutation that is presently taking place on earth. This transformation is the responsibility of all human beings, whether or not we are conscious participants. This time of mutation we are all living in is called Ascension or Apocalypse and is a time of Revelation. Ascension to....? Revelation of...? Ascension is nothing if not TOTAL acceptance, without holding onto our material incarnation, which will allow us, through Transparency, to discover and live the Revelation of our true Nature: Love Light. Transparency allows the Illuminated living of this Truth.

We now have the possibility of consciously living the emergence of the Primordial Earth through the Crystal Womb-Matrix; the earth is living this, our very beings are living this and the galaxy is living this.

This is the resurgence of the original Golden-age of Lemuria and Atlantis, which is coded within the earth's crystals and coded within our DNA-RNA; enabling the return to an age "pre dating" the ceasing of 3D time-space, "pre-dating" our Divine Creator-Magician beings that identify with the film of their creation and "pre-dating" the perversions ensuing from egocentricity.

***"For where the beginning is, there will the end be.
Blessed is he who will take his place in the beginning; he will know the end and will not experience death."*** Gospel of Thomas 18 Codex 2 Nag Hammadi

As with each "***Huile Consolatrice ADEVAYA***", this oil-scent is Light Technology linked more than ever to the sacred art of anointing; created to act as a dimensional gateway between the 3D material dimension and the Crystal-Earth of the 5th dimension, this oil activates in our beings our divine qualities to also become Dimensional Gateways. This is a state not lesser than the state of Christic Being. ***"I am the gateway..." (Yeshoua)***

Holographic and fractal elaboration, similar to the holographic Light-Technology of our body's 3D and multidimensional incarnations, constructs the nature of Crystal A-RÂ-MU.

This crystal-elaboration allows us, through our interaction with Scent, to Work with the First Light-Intelligence, LOVE, in order that our True Nature can regulate all distortions in our crystal morphogenetic field; each of us, through our Transparency, are responsible for the emergence of the Primordial Crystal-Earth.

A-RÂ-MU, in accordance with the same essence of anointing, produces an activation of the pineal gland when used, while anchoring ourselves in the Presence of Zero Point. (see Book 2 : La Matrice, La Magie Matricielle) Helping us return to being Conscious creative pilots, no longer acquiescent to this Space-Time.

Rediscovering the energetic Autonomy of our Unified state of being is a path to Reunification and of Eternity where the Being evolves between the sensualistic and the Conscious: this Perfume, through the sensual practice of Presence in the moment liberates Joy, Ecstasy, Creativity, Magic and spontaneity: this is shining Transparency of our true selves.

The quality of our relationship with other beings and the world depends on our relational clarity with ourselves; our capacity to Love is dependant on us loving ourselves.

Action:

The high concentration of precious and aromatic essential oils, at 22%, the precise composition of the olfactory bouquet and its process of elaboration-activation, make ***A-RÂ-MU Lemurian Essence*** an exceptional perfume which allows Transparency and Reliance to be lived. These factors also create a deep physiological psycho-energetic action, through the olfactory senses and absorption through the skin.

This is a resonating key to rediscovery of energetic autonomy through dynamically balancing and reconciling opposition, on the physical, emotional and spiritual planes. Rebalancing conscious and unconscious, rational and irrational, masculine and feminine, action and inaction. Interior and

exterior, cosmic and telluric..... Therefore a perfume of Anchoring and Alignment that incites us to return to the Essential.

A-RÂ-MU Lemurian Essence is not lived like other perfumes, it's presence is not created though artificially fixed aroma that creates an exterior perfume, once the olfactory experience diminishes the resonance is directed inwards. The synthesis of opposites is also realized though *A-RÂ-MU Lemurian Essence's* unifying action on the left and right sides of the brain: therefore rational thought creative thought and feelings can be attuned. The two hemispheres of the brain will work at the same frequency; no longer in discord but able to work in a synchronous manner. This harmonious vibration activates the pineal gland, anointing gland of the Light Technologies of our bodies, and has a reverberation in the activation in our DNA-RNA crystal codes of the Golden Age of Lemurian. Synchronization of the hemispheres of the brain brings the reunification necessary for living Transparency.

A-RÂ-MU Lemurian Essence is a therapeutic perfume that works on balance and meditation. This perfume allows us to be in the moment , according us the ideal conditions for Living; Men and Women, anchored between heaven and earth and associated in the work of Creation. Returning us to Essence and inner peace. Giving us back Universal (Collective) Consciousness through our unity, helping us to regain security and confidence in life.

A-RÂ-MU Lemurian Essence is the perfume of self fulfillment; Transparency allows our Light Nature to shine forth with less and less interference.

“Being to create, and no longer doing to Be”; such is the devise of A-RÂ-MU and the devise of the Divine Creator Magicians that we are.

It's key words?

Presence-Transparency-Autonomy-Crystal-Multidimensional-Anchoring-Innocence-Spontaneity

How to use?

Listen attentively... Let yourself be guided, by your senses, by your intuition, as you get to know A-RÂ-MU. Listen to your dreams when you wear it while sleeping, watch synchronization emerge in your life; let images come to you as you meditate in the olfactory Presence of it's bouquet.... listen to the sensations of your body, be Present in your Breath; little by little a New Consciousness of perception is put in place.

It's actions are deeply physical, at once energizing, psycho-affective, all this in connection to the multidimensional plane, let your self be guided to the precise parts of the body that call out for it to be used there. Through your interaction with A-RÂ-MU and through the very matter of your body, you will arrive at your own Crystal discovery. Little by little let your true Love-Light nature emerge though the Transparency allowed and bit by bit become emboldened . If emotions well-up, it is due to a re-circulation of stagnant energies, which have been creating obstacles to Flux and Transparency.

A-RÂ-MU unlocks, clarifies, simplifies, breathes the pulse and rhythm of life into the places in us impregnated with and locked in the past; it is dance and Transparency in the density of MATTER. Resonating with the primordial Child within, A-RÂ-MU calls us to creativity and play; allowing these qualities, of the multidimensional Child that resides in the enchanted elfin worlds of the Primordial Crystal Earth, to emerge, rendering our innocent souls capable of re-enchanting this World.

“...‘Truly I tell you, unless you change and become like children, you will never enter the kingdom of heaven.” (Matt. 18.3-4)

"Let the children come to me! Don't try to stop them. People who are like these little children belong to the kingdom of God. I promise you that you cannot get into God's kingdom, unless you accept it the way a child does." (Marc 10.14-15)

A-RÂ-MU is, also, a perfume elaborated to enable work/connection with crystals and crystal skulls through the tuning/resonance between our own crystal structure and that of crystals, crystal skulls, and the Primordial Crystal Earth of the 5th dimension. Be creative.... A-RÂ-MU guilds your ability to interact with the divine beings of the crystalline world.

I know, thought regular practice, that crystal skulls in particular appreciate being anointed and massaged with the ***Huiles Consolatrices Adevaya*** ; A-RÂ-MU is a perfume-oil that has been elaborated with this precise intention.

A-RÂ-MU Lemurian Essence synergistically complements all the other ***Huile Consolatrice ADEVAYA***. It can be used to balance the following nervous and emotional conditions: instability, sadness, melancholy, aggression, nervousness, irritability, depression, sleep problems and stress. As these states of being are signs of miss-alignment/anchorage and non reliance on the Source. Simply use before, meditation, prayer, sexual relations and all other sacred acts requiring Presence and Transparency. (This should be with every breath.....:-)) This perfume can accompany you at any time during everyday life, and can be used easily at any moment when you feel the need. (with your family, in meetings, in the car, of an evening....)

Advice for use:

As a therapeutic perfume, Perfume of consciousness: used on the temples, pulse points and plexuses. Massage in the heart region, solar plexus and diaphragm to transform feelings of guilt. Olfactory-therapy: inhaling the vapors direct from the bottle is a very effective route (ideal for children). Alternatively put a drop onto two cotton buds and place gently at the entrance of the nostril and breathe calmly.

In nasal reflexology: seek a confirmed practitioner who would be able to use the oil at a ratio of one drop of perfume to one drop of base oil.

In auricular therapy: place a few drops of oil on a small piece of cotton wool and place in the outside of the ear above the hearing channel (children should be supervised).

Composition :

The essential oils used in the composition of A-RÂ-MU come, exclusively , from Madagascan flora, some of which are rare and little known, such as Herb of the Kings which grows only in the distinctive ecosystem of this island.

Madagascar, re-emerged Lemurian island situated in the Indian Ocean, transmits to its endemic flora the vibrations and Memory of the Original Earth that predates the perversions allowed by the Game of duality.

A-RÂ-MU is a synergy of aromatic oils at a concentration of 22%, energized in accordance with the same holographic and fractal process used in all **“Huile Consolatrice ADEVAYA”**. The distinct actions of the different oils depend on the quantitative effect of the formula activated through this process. This Light-Technology is appropriate to our Light-Conscious human bodies.
