

## Water & Fire – Reunification.

Solar Oils with “Unique Solar Elixir”,  
***“Huiles Consolatrices ADEVAYA “ with “Elixir Consolateur Unique”***

### ***Basic practice of Anointing***

I hope to clarify the importance of the practice of Anointing. It is a question of the reunification of Opposites, of the Alchemical Marriage.

I speak of this in all my writings, and here I insist on attention being paid to the marriage of Water and Oil at each Anointing. Adding a few drops of Unique Solar Elixir ***“Elixir Consolateur Unique”*** to each application of Adevaya Solar Oil ***“Huiles Consolatrices ADEVAYA”***.

The moment of this marriage, in your Sacred Heart, consecrates and informs your intention of Reunification at every level of your Being. Every intention of Healing is, in effect, an opening to the Living Being whatever may be the result. Acceptance, Faith and Confidence are necessary. The Unexpected is always a Gift for anyone able to see and hear, a “Yes” passing through the Reunification of our whole Being. My ultimate intention is supremely simple; in, that ***“I am allowing God, Life and the Source in me, to open me up immediately to whatever is good for me, and I give thanks for that”***. For the Source knows better than I, with my limited vision of its Plan, what is needed for this Awakening and Reunification to become real. My sole intention is to allow the Source in me to reunify immediately all its plans for my Being and for this I give thanks. The formulation of this intention is deliberately cast: Permission, Immediacy and Thankfulness.

Thus you give permission to Life to manifest what is already there at this moment of the Sacred Alchemical Marriage. This moment stands outside sequential space-time, if you can experience it as anchored, present and conscious. The unique Way Out of the Manifestations of everything which springs from the Duality Matrix is the living-out of this very moment in your presence, anchoring and binding to your Sacred Heart, Liberation and Healing: The form that this Healing may take, is not always what we may expect, as we see things from our restricted View.

This state of Being, in the Instant, permits us to experience the Anointing and its passing on within you, acting at its highest level. This is no longer an Action-Reaction, springing from your neuroses, and various levels of dissociation, but the beneficent Action of your incarnate Divine Being. Feel how you can cause this Light of your Being, of your Sacred Heart, to spring up from your hands and feet, your words and looks. Your breathing Presence and your Sacred Breath transmute and bind you to all that is good for you and which is present from all eternity. This anchoring of the breath, in united hearts may be transmuted into your chakras. Place them equally in your intention and visualization.

Now you are ready to breathe your intention over the mixture of Oils and Elixir. It is your Consecration. Thus you can be free, autonomous, and creatures of your own life creation in Unison with the Living Being. For all Eternity you are Priest and Therapist, creative Officiant. Your breath integrates your intention with the blending of Oil and Elixir.

(The combination of these precious substances and their molecular structure permits the consecration and their alchemical marriage.)

***“The divine Lover is Spirit without Body:  
The physical Lover is body without Spirit.  
The Spiritual Lover possesses Spirit and Body.”***  
( Ibn Arabi)

***“He who oppressed me has been put to death:  
He who surrounded me is no longer:  
My desire is now at peace, and I have been delivered from my  
ignorance.***

***I have come out of the World, thanks to another World:  
A representation has been effaced,  
Thanks to a higher representation.***

***From henceforward I am directed towards Peace,  
Where Time rests in the Eternity of Time.***

***I go now towards Silence.”***

*(Gospel of Mary, Myriam of Magdala, apocryphal Gospel, translated by JY Leloup.)*

Your body–matter is thus transmuted and re-informed by this higher representation of yourself. Your DNA receives the information.

Every moment should be lived out in the same way and it is what I wish for you: that it should be little by little integrated into you.

**Practice:**

Consciously, anchor your energies to the Sun-Fire at the heart of Gaia: and in your in breath and out breath, contact the heart of the Earth-Mother and join your heart with hers. Take time to feel this! Next, anchor your energies to the heart of the solar Fire and in your breathing in and breathing out, make contact with the heart of the Great Central Sun, and bind your heart to his. Feel this! These flaming hearts are the Source in its manifold dimension and your heart likewise.

Next, bind the two solar fires in your heart. Make Earth and Heaven One Love in you, and you are born of that very love! In your breathing out and breathing in, feel this, and allow the Radiance of your heart to enter your being.

Myriam weeps and the Oil,  
Transmission and Anointing.  
Nephtys, Isis weep and give Anointing.  
Transmission of Anointing.  
Water and Fire.

From the acceptance of female Anointing, the son has come to being.

Reunited, resurrected, initiated:  
A man-child become a Man; Anthropos.

*“ The Soul and the Spirit are born of water and Fire.  
It is with Water,  
Fire and Light that the Son of the Bridal Chamber  
has come into being.  
Fire is now an Anointing. Fire is now Light.  
I do not speak of this formless fire, but of that fire whose form is white;  
That clear Light giving Beauty.”*

( Gospel of Philip, translated by JY Leloup)

*Let him who can understand...*

*The “sacred marriage” of Fire and Water creates the Rainbow  
allowing our Human-Divine multi-potentiality to be revealed.*
